3. Suicide Notices on the Internet

Suicide notices on the Internet to which the police reacted based on the information from providers in 2010 decreased to 280 cases or 288 personnel, up by 57 cases or 60 personnel.

4. Anti-Cybercrime Measures

(1) Reinforcement of Investigation

- While establishing the framework of cracking down illegal information on the Internet, cybercrime measures with co-investigation systems throughout the country must be strengthened.
- On researching new methods against new modus operandi including fishing and file sharing software, a new way of crackdown based on it must be promoted.
- Investigation against cybercrimes is reinforced by letting police officers, including those in police stations, develop investigative skills through various educational programs.

(2) Appropriate response to complaints and promoting awareness

Based on the analysis of the situation on cybercrimes, including increasing online fraud using credit card numbers of other people and online complaints, there must be cooperation with business entities on adapting security equipments, including 3D-secure.

(3) Countermeasures against suicide notices posted on the Internet

The police quickly identify those who post suicide notices on the Internet with the cooperation of providers and implement measures to prevent them, including guarding and rescuing.
