

Notice !

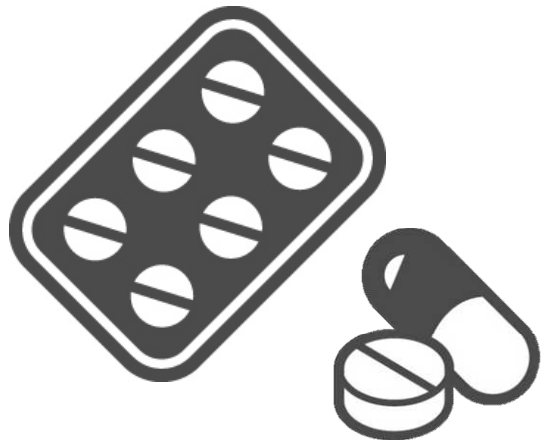

Prescribed Opioid

The import of opioid is restricted by Japanese law.

You must acquire the permission by the Japanese government, when you want to bring prescribed opioid into Japan. Without the permission at your point of entry into Japan, you may be arrested.

Example

Oxycodone
Hydrocodone
Codeine

For details of the procedures to apply for permission to import, please refer to the following web site by the Ministry of Health, Labor and Welfare (MHLW).

<http://www.ncd.mhlw.go.jp/en/application.html>

The import of Cannabis or Cannabis derivatives is forbidden for any reason, including medical use.
