

# Jurisdictions under Increased Monitoring – 21 February 2020

Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the ‘grey list’. \*

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions noted below and to report on the progress made in addressing the identified strategic deficiencies. The FATF calls on these jurisdictions to complete their agreed action plans expeditiously and within the proposed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence to be applied to these jurisdictions, but encourages its members to take into account the information presented below in their risk analysis.

The FATF continues to identify additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF and FSRBs.
